

GREEN SEAL™ ANNOUNCES TWO NEW SPECIALTY CLEANING PRODUCTS STANDARDS

After an extensive standard development process with significant contributions from stakeholders, Green Seal™ has announced that 2 new Green Seal Standards for Specialty Cleaning Products are complete and available to support applications for Green Seal certification.

GS-52: Specialty Cleaning Products for Household Use

www.green seal.org/g s52.aspx

GS-53: Specialty Cleaning Products for Industrial and Institutional Use

www.green seal.org/g s53.aspx

These new standards include general purpose and bathroom cleaners that contain enzymes or microorganisms; Boat, Motor Vehicle, Tire and Wheel, and Waterless Motor Vehicle Cleaning Products; Bilge Cleaning Products; Boat Wax , Polish, Sealant, or Glaze Products; Motor Vehicle Wax, Polish, Sealant, or Glaze Products; Automatic Dish Cleaning Products; Rinse Agents; Hand Dish Cleaning Products; Furniture Polishes; Graffiti Removers; Metal Cleaning Products ; Windshield Washing Fluid; Optical Lens Cleaning Products; Oven Cleaning Products and Upholstery Cleaning Products.

These standards include requirements for product performance to ensure the products meet user expectations.

Dell Tech Laboratories is able to complete the performance tests for the new standards quickly & economically.
